Reviews

This kind of pdf is every little thing and made me seeking ahead of time plus more. It generally will not price excessive. You will not truly feel monotony at anytime of the time (that's what catalogues are for concerning should you request me).

(Dr. Rosie Kuphal)

Gradifco, 2007. soft. Book Condition: New. Encuadernación: Rústica Colección: Pensadores universales Aristóteles nunca utilizó el término Metafísica para denominar esta obra. Metafísica fue producida a continuación de Física; de ahí el título, indicando la ubicación metodológica de este trabajo dentro de la edición de la obra total de Aristóteles. En este sentido se usó el concepto de Metafísica que etimológicamente significa lo que está más allá o luego de la física. Quizá de acuerdo a la preocupación del filósofo, una denominación más correcta hubiese sido: Filosofía, que es a lo que Aristóteles se refiere en esta obra, y que sirve para identificar el estudio de las primeras causas y los primeros principios que rigen la realidad. La filosofía de Aristóteles, al plantearse que realidad es el conjunto de todo lo que existe, y por lo tanto, el primer problema que propone analizar es el estudio de la existencia como tal, se constituye tanto como una metódica crítica a la doctrina de las ideas platónicas como una búsqueda de sustituirlas por una teoría de carácter realista afirmada en el sentido común y la experiencia de lo que, gracias a su trabajo, configuraría las ciencias naturales.
