

Memphis Medical Monthly Volume 9, No. 4 (Paperback)

By Tri-State Medical Association of

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 edition. Excerpt: .spectro-photometer, for the purpose of discovering whether the amount of haemoglobin contained in the splenic artery is greater than that in the splenic vein. He found that the quantity of blood in the splenic vein amounted to 9 52 per cent, while in the artery it was only 9.28 per cent. From these researches he came to the conclusion that haemoglobin is actually formed in the spleen. The results are quite consistent with those obtained by different methods by Drs. Malassez and Picard in France and by Drs. Pashiutin and Vinogradoff in Russia. It is of course well known that there is a considerable quantity of iron in the-tissue of the spleen, consequently there is no inherent improbability in Dr. Krieger's theory.--Lancet. The Microbe Of Diphtheria.--The announcement of the discovery of the microbe of diphtheria by MM. Roux and Yersin, of the Pasteur...
