Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This tractate is a process of stepping onto a surface of quicksand whose depth is indeterminable. The only tangible aspect of this tractate is an intuitive sense that the depth of this quicksand will go well beyond Einstein and his concepts of relativity as it applies to metaphysical thought. To avoid such a journey, however, is to turn away from the true nature of metaphysics, which is to explore regions yet to be theoretically examined by science itself. To shun examining the full implications of a new metaphysical system including its impact upon the theoretical is to shun the obligations of the most basic principles of metaphysics itself: To thine own self be true. And why is the principle To thine own self be true. so basic to metaphysics? Principles are so fundamentally basic to metaphysics because it is metaphysics, which deals with the most basic of principles, principles rooted in the purity of truth itself. The new metaphysical perception which the individual acting within God creates regarding Zeno, Newton, Einstein, relativity, and the modern physics of quantum mechanics is an unusual one to say the least. Modern physics is immersed in the realm of the physical universe. This is as it should be. What should not be the case however is the perplexing abstractual state of existence within which modern mathematics (the language of physics) and physics find themselves existing. Mathematics and modern physics find themselves immersed within the realm of physicality with no sense of understanding the abstractual significance of the very physical reality they are examining. Mathematics and physics are in a state of abstractual confusion. This state of abstractual confusion was not created by...
