

## The Land/Ocean Interactions in the Coastal Zone of West and Central Africa

By Salif Diop, Jean-Paul Barousseau, Cyr Descamps

Springer International Publishing AG. Hardback. Book Condition: new. BRAND NEW, The Land/Ocean Interactions in the Coastal Zone of West and Central Africa, Salif Diop, Jean-Paul Barousseau, Cyr Descamps, Although the main focus of this book is on the estuaries, its scope goes well beyond this particular coastal feature. Indeed, the estuary can only be considered as part of the life cycle of the entire river and the marine area it feeds into: an area particularly subject to human and natural pressures. The main estuaries and deltas of West and Central Africa region provide a variety of goods and services to its coastal population. The most important of them are related to critical fish habitat, wood and charcoal from mangroves, as well as space for agriculture, aquaculture, urban development, tourism and transport. Particular emphasis has been made in this book on mangroves that play a significant role in terms of flood control, groundwater replenishment, coastline stabilization and protection against storms. They also retain sediments and nutrients, purify water, and provide critical carbon storage. Such hydrological and ecological functions explain the focus on serving mangrove ecosystems and the nearby communities, which draw significant income from fishing, rice production, tourism, salt extraction and...
