

Technology And Labour Selected Essays

Filesize: 4.08 MB

Reviews

This publication is indeed gripping and intriguing. It is actually written in basic terms and not difficult to understand. I am just pleased to explain how here is the greatest publication we have read through during my own lifestyle and could be the best pdf for at any time.

TECHNOLOGY AND LABOUR SELECTED ESSAYS

DOWNLOAD

2007. Hardcover. Book Condition: New. 339 The book is a collection of selected essays on labour and technology published in a number of journals since more than a decade. The book aims at exploring the creative and destructive role of technology for employment and displacement of labour. Production of commodities is taken as the domain that gives and man-transformed resources are the means by which technology is expressed. Technological progress leads to changing skill requirement, which offers the scope for additional labour employment. On the other hand, obsolescence of technology leads to redundancy and exit of presently employed labour. These and related issues revolving around commodity production, technology and labour, especially the relationship between them, are the focus of this book. The common thread running through the essays is that technology is both the cause and consequence of labour absorption and labour displacement. The context of the papers range from local to global and the issues relating technology and labour have been posed in the context of a developing economy. The essays are based on both theoretical and applied issues. About The Author:- Bhaskar Majumder is a senior faculty in Economics in G.B. Pant Social Science Institute, University of Allahabad. He is also a visiting faculty at the Malaviya Center for Peace Research, Banaras Hindu University, Varanasi. He did his M. Phil. And D. Phil. In Economic from the University of Calcutta.
